Dec. 12	Annual Meeting	Omaha

### AN EDITORIAL

Saturday nite, August 22nd, a business meeting was held in Lincoln to determine some very important issues on Club matters. Issues, in this writer's opinion, that should be of concern to each and every member.

As of August 10, the Nebraska Region Sports Car Club of America, had on its rolls eighty-six dues paying members. At the afore mentioned business meeting which your officers deemed most necessary to hold, and to which each and every member was invited, no more than twenty-three members bothered being present, why?

I feel that this is no more than an indication of what our attendance at club events has been so far this year. For the record it looks like this:

<u>MEMBERS</u>		<u>MEMBERS AT EVENT</u>
January	63	30
February	67	35
March	73	21
April	73	39
May	75	26
June	77	19
July	79	22
August	86	23

Perhaps when each of you receive the proposed addition to the by-laws of the club which will be mailed to you next month you'd better look it over very carefully, maybe next year there will not be a club event to which you will be welcome. You will not be a member!

EXTRA EVENT

Your Activities Chairmen has received a number of requests from certain members in the club to hold a straight time and distance rally prior to their participation in several national rallies this fall. As the time required to lay out such a rally is quite limited, it has been decided that the 3 hour Sunday leg of last months Golden Rod Rally would suffice. However, to more or less give everyone a fair chance all average speeds have been changed and numerous hidden checkpoints have been added.

Where: The Town House  
70th and Dodge  
Omaha  
When: Sunday Afternoon  
at 1:30  
September 6th.

AUGUST ROCKET RUN

Twenty-three dust covered cars and forty-two unhappy rallists competed in and completed this years rocket run. The only ones who did not complain too vigorously about failure to see any rockets, blown Sprites, getting shot at, the dust, and the Platte River between them and the rocket launching site were Marty Hall and Bob Belt, who won the event and Jerry Venger and his date who finished second. There were no other finishes.

For those who didn't find rocketeers Tony Anderson and John Carter, Cape Canaveral was located  $3\frac{1}{2}$  miles by road and two miles cross country from the start line.

The Platte River, it seems, is considerably further south and west of where most wanted it to be.
