If you have any questions about your point totals - contact Kendahl no later than November 13, 1982. After that date - the points become final and no changes will be made.

NO, you didn't miss getting an October issue, there wasn't one. Sorry about that. There most likely will not be a December issue either, so don't get in a fret if you don't get one. There will be a new editor next year! and probably a new look to the Notes.

For those of you who would like to write to the Kilgore's, (and they would love the mail) their new address is: 905 Ferndale,  
Round Rock, Tx 78664.

I will be putting a proposal to the Board which is as follows:

There should be a provision for Solo II's to let a "new" person try running the course to "see what it's like out there". I am proposing that there be "see what it's like" runs allowed for \$1.00 for one run. The cars would register as running only once and be issued a number and class just like all other cars, however, the car would be allowed only one run on the course. The timers would receive a timing card with an X on it and the car would have an X on it by the number to designate it is allowed only one run on the course. To keep registration out of any hassles, this car will not be allowed to come back and say he wants to be a regular entrant for this event after having the one run. No limit or list of people would be kept, but no points will be given to members who run only once under this new category. I believe that this might get people to try Solo II's that really don't know if they would like it. If you like my idea or hate it, either way, I would like to hear from you. What you tell me may make a difference in the implementation or adoption of this new category. Thank you.
